The A&E Amnesty Program is intended to ensure maximum recovery of military A&E items outside the supply system. It is not intended to circumvent normal turn-in procedures. The A&E Amnesty Program provides an opportunity for individuals to return A&E found, stolen or misplaced without fear of prosecution. A&E amnesty turn-ins will not be the basis for initiation of an investigation or prosecution and are exempt from AR 190-series investigation requirements.

3. Applicability. Procedures and responsibilities established herein are applicable to personnel assigned or attached to the USAG Baumholder Military Community.

4. Policy.

a. Small arms ammunition, up to and including .50 caliber, is eligible to be returned to military control through the Amnesty Program. A&E meeting this category may be turned in to an amnesty box or amnesty turn-in point as designated by the USAG Baumholder Commander.

b. All other A&E will be considered hazardous and will be handled only by trained and qualified EOD personnel. This category of found or recovered A&E must be reported to Military Police.

5. Responsibilities.

(1) Providing an amnesty point or amnesty box within their Area of Responsibility (AOR) for collection of found or recovered A&E found by unit members.

(2) Appoint qualified personnel to check the amnesty box or amnesty point at least weekly and dispose of found A&E to the appropriate Ammunition Supply Point (ASP).

(3) Reporting to Military Police the discovery of A&E in greater than .50 caliber or any quantity of explosive or munitions other than small arms.

(i) Coordinate with explosive safety personnel to approve collection procedures and facilities

(j) Have basic required equipment for handling and transporting A&E (i.e. fire extinguishers, placards, etc)

c. The Director of Emergency Services will coordinate the investigation and preparation of necessary reports to document the discovery or recovery of munitions greater than .50 caliber, any explosives, or small arms munitions in sufficient quantity to require a Category II Serious Incident Report (greater than 1,000 rounds of small arms munitions).

6. This policy memorandum supersedes policy memorandum 5-13, dated 10 November 2008.
